

Devang Mahimkar

Desired Role: Data Analyst

A Visionary, self-motivated Data Analyst and a great team player. I'm a keen and quick learner doing end-to-end projects using the skills developed along with my academics. Honestly joining an organisation will help me learn a lot. I would love to seek guidance from the experienced teams. Hiring me would be beneficial for your company and me as well

EXPERIENCE

Data Analyst Intern

June 2023 – July 2023

- Generated key business insights using company's NBFC datasets, leveraging Power BI as an analysis and report creation platform
- Implemented and conducted end-to-end testing of the AI-powered Q&A feature in Power BI, resulting in a 20% reduction in manual insight generation time and enabling in-depth analysis for faster decision-making

PROJECTS

Customer Segmentation & Product Analysis

- Analysed and interpreted sales and customer data to identify key trends and opportunities; suggested targeted marketing strategies that can potentially increase customer acquisition
- Conducted in-depth analysis of product revenue and other key metrics, providing a clear vision for growth of the major product line-ups

Diabetic Retinopathy Detection

- Presented a proposal for a project with the objective of creating a user-friendly and highly accurate system, with the potential for the development of a dedicated medical device, focused on the efficient detection of Diabetic Retinopathy in patients
- Developed a machine learning SVM model using Sklearn & TensorFlow with an accuracy of 95%

Sales Performance Dashboard

- A personal project where the dataset was sourced from Kaggle
- Performed data cleansing in Excel & initial exploratory analysis in SQL
- Made ETL transformations in Tableau

EDUCATION

Bachelor Of Engineering (B.E) in Artificial Intelligence & Data Science

New Horizon Institute of technology & management

Feb 2020 - Present

Mumbai University, Maharashtra, India

CGPA: 9.2/10
